Private sales reported to the secretary or the Richmond Tobacco Trade to-day: Wrappers, 1 hogshead; fillers, 8; lugs (dark), 35. Total, 44 hogsheads. The tobacco inspector reports to-day: bacco inspector reports to-day: is-Bright, 11 hogsheads dark, ads. Reinspections-Bright, 48

hogsheads. Alleghany, Old Dominion, Shockoe, Davenport's, Planters', Seabrooks, and St. elburne's tobacco warehouses report, to-day: Receipts, 5 packages; deliveries, l packages. United States internal revenue collec-

attributed to the smallness of the 1802 crop, but a review of the figures show that while the crop was short of that for 1802, the shortage did not fall upon the Louisville market. There have been marketed at Louisville up to date, 103,180 hogsheads of 1802 crop. Up to the corresponding date last year there had been marketed 103,478 hogsheads of 1801 crop. The figures indicate no great difference in the two crops at this point, and the explanation of the falling off in 1803 sales must be sought elsewhere.

The following table shows the receipts and deliveries of tobacco at this market during 1803 and the stocks at this date:

A VALUABLE OLD COIN. .

A Virginian Sends Rosenthal Bros. Onc. of the 1804 St ver Dollars,

PHILADELPHIA, PA., Jan. 3.-The be-Hef that only seven of the 1804 silver dollars were in existence has been an error, for the eighth one has turned up. Rosenthal Bros., dealers in old iron, had a cebtor in Virginia from whom they tried vainly for some time to collect a bill of \$500. Recently the Virginian sent the firm one of the much sought for 184 dollars. He stated that he sent the coin in payment of his bill, and if the Rosenthals could sell it for more than the total of the account they could keep the balance. In explanation of how he came into possession of the dollar, the Virginian wrote that he had bought it for \$30 from an old negro, who was ignor-ant of its rarity and value, and in whose family it had been for a long time. The Rosenthals took the dollar to the mint here and it was pronounced genuine.
A coin-collector has offered them \$350 for the dollar, but they refused the offer, as at an apotion sale of coins here one of the 1804 dollars sold for \$1,000.

SUGAR STRIKES BOTTOM,

The Recent Decline Brings the Price Pe low the Lowest Quotation.

PHILADELPHIA, Jan. 3.-The recent declining tendency in sugar prices culmin granulated, which brought the ner price below the lowest quotation on record. The price was fixed at 4c., less a rebate of 3-16c., and 2 per cent, discount to buyers, so that the net cost to jobbers was 3.76c, per pound. The lowest previous price was 4c., less the cash discount, in the fall of 1891, shortly after the removal of the duties on raw sugars, and at the time of the Spreakles connectifion with of the duties on raw sugars, and at the time of the Spreckles compelltion with the local refineries outside of the Sugar Trust. At that time, however, there was no rebate such as now allowed under the such as now allowed under the such as now allowed the such as the suc terms of the agreement between the re-finers and the wholesale grocers, and the current price is, therefore, the lowest ever touched on refined sugar.

Mexican Central, writes a letter to the Savannah press strongly urging the re-moval of the Southwestern railway from the Central system. Raoui claims that a speculative scheme is organizing in New York to secure control of the Georgia Central railroad, and that the South-western railroad, centering at Macon, western railroad, centering at should be saved from the wreck.

Consul George W. Savage Dead. WASHINGTON, D. C., Jan. 3.—The Department of State was informed by cable to-day of the death of George W. Savage, United States consul at Dunder, Scotland. United States consul at Dundee, seotland, Savage was an invalid several months. His age is over sixty years, tending to the rapid progress of his disease. He was born in New York, and appointed during Cleveland's first term, from New Jersey, consul at Belfast. Last June he was appointed consul at Dundee.

THE CITY POST-OFFICE,

General Receipts Decrease, but There is an Increase in Some Departments.

Postmaster Russell expects in a few days a supply of the new postal cards recently ordered by the Government. They are of a size between the largest of the three styles now in use, and the original

United States card.

The three sizes adopted some time ago have given endless trouble on account of their lack of uniformity in handling. The writers to foreign countries have sought to save postage by using the large card with a one-cent stamp added, in the foreign countries refuse them. but the foreign countries refuse them. and charge double letter postuge at the other end of the line, in some cases because of their troublesome size in hand-

There will be only one size of the nev There will be only one size of the law card, and that will correspond to a No. 412 envelope, which is used for the average size letter.

With the old cards, the largest ones

mutilated by the string which is used in tying up letter packages.
With the new, this will be obviated, as the postal cards and letters will be, as the postal cards and letters will be, as far as practicable, a uniform size. Postmaster Russell still has an ampie supply of the Columbian stamps on hand of all denominations from one cent up to \$5. and stamp collectors may still secure a complete series between those sizes.

The decrease in the general receipts for the city post-office for the past year is about 5 per cent., owing to the discontinuance by business concerns of circular advertising, largely done before the late

the banks throughout the country, the money-order business for the year was very largely increased. An increase of business was shown for the month of business was shown for the month of December just post, over the same month the year before. This was especially noticeable in the registry department, where the packages handled numbered twelve hundred more than they did in December, 1892.

We'll Have Ham To. Night, The Virginia Division of the Travelcis'

TIMES BUREAU, RAPLEY BUILDING, | WASHINGTON, JANUARY 3, 1894.

As might have been expected, a Dentocratic quorum failed to materialize in the House this morning, and history has

manded immediate consideration, upon which motion the yeas and hays were ordered, which disclosed the fact that not a quorum of Democrats were present. As the Republicans refrained from voting, there was nothing left but to adjourn. there was nothing left but to adjourn, Eight congressmen from Virginia and five from North Carolina were conspicuous by their absence, but they will probably be here to-morrow. Congressmen Meredith and Swanson, of Virginia, and Congressmen Alexander, Grady, Headerson, and Settle, of the North Carolina delegation, were in their seats and answered to every roll-cail.

Senator Hunton Sworn In. In the Senate this morning Senator Hunton, of Virginia, was sworn in. Senator Blackburn, of Kentucky, in the absence of Senator Daniel, escorted him to the bar of the Senate. The omission of the bar of the Senate. The omission of the Vice-President to congratulate the new senator at the concusion of the connoticed, but it mony was noticed, but it was clearly an oversight, and no sort of slight could have possibly been intended, as the most cordial relations exist between Sen-ator Humon and the Vice-President.

The Wilson Bill. The Wilson Bill.

It had been expected that Chairman Wilson would call up the tariff bill this morning, and offer the amendments regarding the income tax and the internal revenue changes, but the Hawalian resolution urged by the Republicans prevented any other action. As soon as the Democratic quorum appears the Boutelle resocratic quorum appears the Boutelle reso-lution will be tabled, and that of Representative McCreary, exonerating the President and approving his appointment of Mr. Blount, will be adopted. The entire question will be only one of politics.

O'Fer al 's Inaugural. The papers containing the full text of lovernor O'Ferrall's inaugural address Governor O'Ferrall's inaugural address were received here yesterday, and the splendid speech was everywhere the sub-ject of the greatest commendation. The glowing panegyric upon Virginia was read and rerend by groups of congressmen and Virginians, and with one accord they pronounce his tribute to the old Common-

GREAT INJUSTICE DONE. On Any Fair Method of Computation

Editor Times: As a master of justice to

importance, justice to the city of Rich-

Raoul Takes a Hand.

SAVANNAH, GA., Jan. 2.—Captain W.
C. Raoul, fermerly president of the Georgia Central, now president of the Markey Control. this paper I was misled by accepting a method which I believed to be correct.

I therefore frankly acknowledge what was said of it in your paper of the 15th instant by the Board of Commerce, with was wrong, and in doing so wish to with-draw fully and freely anything in it which may have reflected on others, but that the fact, which I am convinced is a fact, that Richmond, on any fair method computation of its health statistics, is

try, may be made apparent, I submit the following for the consideration of all fair-minded men who may take an interest in In examining our health table my at-tention is attracted by the large number

of deaths recorded which were never counted in our census-1st. Five hundred and forty-two (542) deaths under one year of age. 2d. Two hundred and seven (207) deaths

under five years of age. 2d. Another factor coming under this

head is contained in the number of deaths of people moving into the city between consus and census. Estimate this class at one hundred (100) a year. 4th. Another class, those coming to our

city from other communities desperately diseased, hoping to profit by the superior skill of our physicians in their various specialities. I do not think one hundred (100) deaths a year a large estimate for his class. Allow this to be the average in each

class, and we have in ten years, between census and census, nine thousand four hundred and ninety 0.490) deaths recorded which were never counted in our popula-tion, all being factors in our death rate computed on the census of 1896, which is \$1,388, of which they constitute no part.

which are counted in our census, although they have no bearing on the healthfulness

4. A resolution was before the Council a short time ago, to remove the codner a short time ago, to remove the almshouse beyond the corporate limits, a policy, I am told, adopted by many other cities. Had this resolution prevalled, although I am unable to see how the healthfulness of our city would be affected by its being on one side or the other of

Bacon Quarter Branch, its removal would have eliminated from our death list one hundred and sixty (160). The figures I have given, one thousand and twenty-five (1,025), improperly used as a measure of our healthfulness, amount to nearly one-half of the deaths recorded in 1892, two thousand one hundred and ten, C.110). According to estimate given, nine thousand four hundred and ninety (9,5%) deaths will occur between census and census, constituting no part of either census, being counted in neither, yet they are made a factor in ealculating our death rate on the census of 1850-81,388- of which they constitute largely over 10 per cent. In other words, nine thousand four hundred and ninety 0,490 persons are to be taken out dead from our population of

Protective Association, in response to many inquiries as to the character of the lecture "Shollygoster in Polities" at the Academy to-night, desires the Times to say that it is an amusing, entertaining, and also an instructive one. This lecture has been delivered before a great many large and refined audiences all over the South, as well as in New York, Pennsylvania, Connecticut, and Ohio. Mr. Ham is a member of the Georgia Legislature, and enjoys the acquaintance of some of our best citizens. They especially ask their friends to bring their ladies with them,

81,388, in which they were never counted

city compels me to say the death rate given is incorrect, being based on a population of 29,900, our real population being 25,900," a claim of about 15 per cent. Add the same to our census, and it gives us about what our population was estimated to be, as far back as 1886, 190,000. From the slight examination I have been able to give the subject, the results of which the slight examination I have been able to give the subject, the results of which I have given as briefly as I could, I am confident in my opinion that Richmond is perhaps one of the healthlest cities in the country. Our death rate, though perfectly accurate, as a death rate, is, I think, unreliable and untruthful as a measure of our healthfulness. Believing this, I will say, in conclusion, that until the contrary is proven by some more reliable method than the one in use, having a deep and abiding interest in her welthe House this morning, and history has already recorded one legislative day wasted on account of it.

Immediately after the proceedings in Immediately after the proceedings in the House were begun, Mr. Boutelle, of Maine, called up the resolution offered by him as a privileged question before the adjournment for the holiday recess, which stated that the President had transcended his authority and invaded the rights of Congress in his instructions to Commissioner Biount. Mr. McMillia degradad immediate consideration, upon Respectfully, Respectfully, E. P. REEVE.

LIABILITIES OF EMPLOYERS. Employers Shall Make Compensation for Injuries of Emp oyes.

An important bill was introduced in the House of Delegates yesterday, as stated in another column of the Timer. It was introduced by Mr. Julian Bryant, of this city, by request, and it is understood that Mr. William O. Skelton is the author of the bill. Mr. Bryant stated afterwards that the measure met with his terwards that the measure met with his hearty approbation. It seeks to extend and regulate the liability of employers to make compensation to employes for personal injuries suffered by them in their service, and is of such importance that the five first sections of the bill are given below. The remaining sections relate to methods of compromising suits,

The following are the first five sections:
Section 1. That when a personal injury is received by a servant or employe in the nervice or business of the master or employer, the master or employer is liable to the control of the cont ble to answer in damages to such ser-vant or employe, as if he were a st. anger and not engaged in such service or emand not engaged in such service of im-ployment, in the cases following:

1. When the injury is caused by reason of any defect in the condition of the ways, works, machinery, tools, or plant connected with crused in the business of

the master or employer.

2. When the injury is caused by reason of the negligence of any person in the service or employment of the master or employer, who has any superintendence intrusted to him, whilst in the exercise of such superintendence.

3. When such injury is caused by reason

of the negligence of any person, in the service or employment of the master or employer, to whose orders or directions the servant or employe, at the time of the injury, was bound to conform, and

the injury, was bound to conform, and did conform, if such injuries resulted from his having so conformed.

4. When such injury is caused by reason of the act or omission of any person in the service or employment of the master or employer, done or made in obedience to the rules and regulations or bythese of the master or employer, are inlaws of the master or employer, or in obedience to particular instructions given

trol of any signal, points, locomotive, engine, switch, car, or train upon a rail-

the work comprised in such contract with the employer, such contract or subcontract shall not bar the lia-bility of the employer for injuries to the employes of such contractor or subcon-tractor, by reason of any defect in the condition of the ways, work, machinery, of the employer, or furnished by him, and if such defect arose, or had not been discovered or remedied, through the negli-I therefore frankly acknowledge what was said of it in your paper of the 15th instant by the Board of Commerce, with perhaps more truth than courtesy, that I was wrong, and in doing so wish to withdraw fully and freely anything in it which may have reflected on others; but gence causing the injury, and failed in a reasonable time to give information thereof to the master or employer, or ed in the service or employment of the master or employer, unless he was aware that the master or employer, or such superior, already knew of such defect or engligence; nor is the master or employer liable under of section one or fect therein mentioned arose from, had not been discovered or remedied, owing to the negligence of the master or employer, or of some person in the service of the master or employer, and intrusted by him with the duty of seeing that the ways, works, machinery

Section 4. No person or corporation shall by any contract, rule, regulation, or otherwise, impair or diminish his or

its liability under this act. Section 5. If such injury results in the Section 5. If such injury results in the death of the servant or employe, his personal representative is entitled to maintain an action therefor, which action shall be brought within twelve months after death of such servant or employe. The jury in any such action may award such damages as to it may seem fair and that not accedited \$10.000 and may and just, not exceeding \$10,000, and may direct in what proportion they shall be distributed to the wife, husband, children, and either or both of the parents of the deceased. But nothing in this section shall be construed to deprive the court of the power to grant new trials as in other cases.

Knights of Pythias,

The Syracuse' Lodge, No. 5, Knights of Pythias, elected on Tuesday night the following officers: V. Donatl, chancellor commander; W. M. Evans, vice-chancellor; J. B. Heck, prelate; W. E. Cree, master of fnance; William E. Woody, master of exchequer; George E. Bowden, keeper of records and seal; R. G. Baughan, master at arms; John G. Satterwhite, master of work; E. T. Pulliam, inner guard; A. A. Evans, outer guard; A. L. Lucas, representative to the Grand Lodge; T. L. Martin, alternate, and C. A. Canepa, lodge deputy.

W. A. Jacob yesterday commenced a suit in the Chancery Court against the stockholders of the Star Newspaper Comstockholders of the star Newspaper Com-pany, and applied for rule to be issued on the third Monday of this month. Mr. Jacob is a compositor, and he brings suit to recover a balance due him for ser-vice while one of the partners in the cooperative company. Signed Dis Commission.

Governor O'Ferrall, as commander-in-chief of the military of Virginia, yester-day signed the commission of Captain George A. Ainsile, commandant of the Ashby Light Horse. . Innolntments Yet.

Secretary of the Commonwealth Joseph T. Lawless was at his office yesterday looking after the business of his depart-ment. He will not make any new ap-pointments for about a week to come. Mental exhaustion and brain fatigue Promptly cured by Bromo-Seltzer,

The Christian Endeavor Societies of Rich-

The proposed mass-meeting of the Christian Endeavor societies of Ricinmond and Manchester will take place to-night at Centenary Methodist church. In order to give it an informal appearance, the meeting will be held in the lecture-room, which is still dressed in its Chelston appearance.

The programme is only in part religious in character, and it will be varied by music, short speeches, and special fea-

ing that gathering.

The convention, judging from the increase of the societies in the State as shown by the reports to the State society.

Canada and America.

The public are invited to the meeting to-night, and a large crowd will no doubt be present.
